All Large Flowering

for only **\$2.49**

No. A2408X

1 **JACKMANI**—the old favorite rich purple.

1 **HYBRID WHITE** (Lanuginosa Candida)—the beautiful white hybrid with 6-inch flowers.

1 **CRIMSON KING**—huge-flowered, brilliant crimson.

Hybrid Clematis do well most any place, and do particularly well in the midwest because they like "sweet" or neutral soil. Do exceptionally well when planted in the fall.

We send you plants out of 2 1/4" pots as we find this size does best. You get them with the roots in the moss they grew in—just put these moss balls in the ground, pack dirt around them well, and a little over them. Next spring they will grow and bloom beautifully.

DARWIN TULIPS

MOST POPULAR OF ALL TULIPS

Darwins have long been the most popular of all tulips, probably because of their bright, cheerful colors and because their stems are just about the right length for all purposes (about 2 feet in a normal season). The Darwins are illustrated and priced below.

We have tried to choose for you the 12 very best of all the Darwin varieties. Not the most expensive, **but the best**. All these bulbs are 11 to 12 centimeter size, and all of them are imported from Holland from a fine Dutch firm with whom we have done business for many, many years.

All Tulip Prices are Postpaid

Henry Field's Famous RAINBOW COLLECTION of DARWIN TULIPS

15 ASSORTED BULBS FOR ONLY 1.00 POSTPAID No. B7062X

Large Bulbs—Lots of Them—All Named Varieties

We always figured it takes plenty of tulips to make a good show so we try to have a real reasonable offer, particularly for the folks who need it—all the rest of you are welcome too.

For many years Henry Field's "Rainbow Tulip Collection" has been famous. It's a lot of bulbs, good bulbs and good varieties, for only 1.00, postpaid.

Now these aren't little bulbs, but big ones—10 to 11 centimeter size. In plain English, that's about 4" around. And they aren't just any

old mixed bulbs swept up off the floor or out of the corners, or left overs. We buy 20 named varieties of the finest Darwin tulips and mix them right here in the seed house. Drop in at bulb time and we'll show you.

If you want these bulbs, better order early because we usually sell out quick on this collection.

1 collection (15 bulbs) for 1.00;
2 collections (30 bulbs) for 1.95;
6 collections (90 bulbs) 5.50, postpaid.

"GIANT" RAINBOW COLLECTION

B7065X—Here is a special bargain in the GIANT-sized bulbs. It is made up of good named varieties that you will be proud to have growing in your yard. Your neighbors will admire them, and, if they know anything about tulips, they will recognize their quality. These bulbs will produce amazingly large flowers next spring. All colors. We mix these ourselves.
1 collection (10 bulbs) 98c; 2 collections (20 bulbs) 1.79; 5 collections (50 bulbs) 4.25; 10 collections (100 bulbs) 7.49, postpaid.

BARGAIN NAMED VARIETY COLLECTION

B7061X—2 each of the 12 Darwin tulips shown above—a total of 24 bulbs of 12 named varieties of the best Darwin tulips for only 2.25, postpaid. A real bargain! 2 collections (48 bulbs) for only 4.19, postpaid.

BUNCH FLOWERED TULIP

**Produces
2 to 5 Blossoms
from Every Stem**

There is a scarlet bouquet in every bulb because each bulb throws from two to five gleaming blossoms from one stem. This is one that probably neither you nor your neighbor have grown before. You'll like it.

B6030 — **FUSILLIER**. A brilliant orange-red. A border or bed of them is strikingly beautiful. We used to carry the light pink variety but this red one is far more beautiful and showy. 3 for 70c; 6 for 1.20; 12 for 2.15, postpaid.

Every stem of Bunch Flowered Tulip is a bouquet.

RED EMPEROR

The Most Brilliant Tulip in the World—and the Largest!

B6116—This tulip has everything. It is the earliest to bloom, has the most brilliant color, and is the largest in size of all the tulips.

If we could grow just one tulip this would be it. If you have grown them, you know. Plant them on each side of the front steps, or a whole bed of them. You'll really have something to show. People will see them from a block away! 3 for 50c; 6 for 85c; 12 for 1.59; 25 for 2.89, postpaid.

SCARLET GLORY

BLUSHING BRIDE

BLACK GIRL

WILDFIRE

4 BRAND NEW ONES

We thought you would like some varieties that are ahead of the run of ordinary garden tulips. After considerable searching among the Dutch growers, we chose these exceptionally fine, beautiful varieties.

New Varieties Collection

B7067X—3 each of the 4 brand new ones shown here. 12 bulbs in all. Labeled. Only 1.95, ppd.

B6122—SCARLET GLORY. Most brilliant scarlet tulip. Huge flowers. Long stems. 3 for 60c; 6 for 98c; 12 for 1.75, ppd.

B6054—BLUSHING BRIDE. Creamy-white flower that turns to white with touch of delicate rose. 3 for 63c; 6 for 1.10; 12 for 1.98, ppd.

B6053—BLACK GIRL. Nearest to true black of all tulips. Large flowers. Tall stems. 3 for 63c; 6 for 1.10; 12 for 1.98, ppd.
B6139—WILDFIRE. Bright yellow, shot with red flames. Wildly brilliant. 3 for 60c; 6 for 98c; 12 for 1.75, ppd.

REMBRANDT TULIPS the "Painted Tulips"

B6375—Our catalog is one of the very few in which you will find these "painted tulips." We always have been strong for them because we know most people like plenty of color, and the Rembrandts certainly are colorful. They grow

like Darwins, are about the same size and shape, but the flowers are striped and flamed, or flaked, with vivid colors. Mixed Rembrandts, all colors: 3 for 55c; 6 for 89c; 12 for 1.59; 25 for 2.79; 100 for 9.98, postpaid.

AMERICAN FLAG

B6350—The finest of all Rembrandt tulips. Brilliant red, striped and flecked with white. People who visit our show grounds always are attracted by the beauty of this striking tulip. 3 for 58c; 6 for 92c; 12 for 1.65; 25 for 2.98, postpaid.

BREEDER TULIPS

Longer Stems—Darker Colors

Breeder Tulips are different in two ways:

- (1) They have longer stems, up to 3½ ft. in height.
- (2) Their colors are richer and darker.

This makes them particularly suitable for the back of the row, or in the center of the bed. Their deep, rich, bold colors accent the beauty of the lighter, brighter colored tulips. Also fine planted alone.

Named Varieties Collection

B7000X—2 each of 6 leading named varieties of Breeder Tulips. 12 bulbs in all. Labeled. Only 1.29, ppd.

Mixed Breeder Tulips

B6010—Mixed colors but all dark and long stemmed. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, ppd.

SYMPHONIA

SNOW PRINCE

BONANZA

B7037X—3 each of the five Double Peony Flowered Tulips shown here. 15 bulbs in all. Labeled. Only 2.19, ppd.

EROS

UNCLE TOM

DOUBLE PEONY-FLOWERED TULIPS

Huge, Long-Stemmed, Double, Peony-Like Blossoms!

Entirely different from and far superior to the old, squatty, short-stemmed, double early tulips. Have stems 2 feet long with blooms big as peonies, and very fragrant. You'll love their rich beauty.

B6043—SYMPHONIA.

Large, brilliant, rosy-carmine flowers. Long stems. 3 for 60c; 6 for 98c; 12 for 1.75, ppd.
B6031—BONANZA. Each red petal edged bright gold. New. 3 for 55c; 6 for 89c; 12 for 1.59, ppd.

B6034—EROS. Finest clearpink. Very scarce.

3 for 67c; 6 for 1.20; 12 for 2.15, ppd.

B6042—SNOW PRINCE. Beautiful double white. Very large. 3 for 60c; 6 for 98c; 12 for 1.75, ppd.

B6045—UNCLE TOM. Rich, dark red. Huge size. Very scarce. 3 for 70c; 6 for 1.25; 12 for 2.29, ppd.

Early FLOWERING TULIPS

Improved varieties with a wide range of clear, bright colors you will be happy to see early in the spring. The petals are more pointed, blossoms more open than most tulips. They look very much like the pretty pointed caps the Dutch girls wear. Stems of medium height.

B6272—SPECIAL MIXTURE. Mixture of named varieties. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, postpaid.

Try Them in Rock Garden, or Under Tall Shrubs. Also Indoors.

Crocus come up with the melting snow drifts and are so welcome after the long winter months. Grow them among the shrubbery, or right out in the open on the lawn. Try some in a corner too. Very easy to grow. And all are the GIANT-flowered kind:

B6415—Purple
B6426—Yellow
B6401—Blue
B6418—Striped
B6425—White

Prices: 10 for 70c; 25 for 1.49; 50 for 2.39; 100 for 4.25, ppd.

GLORY OF SNOW

B6806—(Chionodoxa). Extremely hardy, beautiful, very early spring bulbs. Increase rapidly. Ideal for scattering on the lawn, or bordering tulip or perennial beds. They bloom year after year. 6 for 35c; 12 for 59c; 25 for 1.10; 100 for 3.98, postpaid.

CHINESE SACRED LILY

the Yellow "Paper White"

B6703—Looks like a Golden Paper White. Much surer to bloom than the old Narcissus Soleil D'Or so often offered. Clusters of flowers on tall stems like paper whites. 3 for 58c; 6 for 92c; 12 for 1.65, postpaid.

GRAPE HYACINTHS (Muscari)

B6907—Make a beautiful border for the tulip bed or walk and also are fine planted in solid masses. Heavenly blue spikes with small blooms in deep, rich blue. Live for many, many years and increase in bloom every year. So hardy nothing seems to stop them. 12 for 39c; 25 for 59c; 100 for only 1.39, postpaid.

SCILLA (Campanulata)

Ideal for wild gardens, borders and rock gardens. Sow themselves freely, live for years. Very early bloomers. **B6902**—blue. **B6903**—pink. **B6904**—white. **B6905**—mixed. 10 for 60c; 25 for 1.25; 100 for 4.25, postpaid.

Paper White Narcissus Grow It in the House

B6720—The old favorite we all know. Plant them at intervals of two weeks and have flowers in the house all spring. Large blooming-size bulbs. 3 for 55c; 6 for 89c; 12 for 1.59, postpaid.

B1421—Du-Bon-A. A new variety. Rich wine-purple 4" flowers are very showy. Bushy plant 2' high. Lots of large blooms on long stems. 69c each; 3 for 1.89, ppd.

Fuchsia Fairy Chrysanthemum

B1419—Above is a photograph of a plant of Fuchsia Fairy as it bloomed for us here in Shenandoah last year. As you can see, it is low-growing, with a mass of fuchsia colored, fully double little flowers, each flower about one inch across. It makes a beautiful showing—really a beautiful thing. 59c each; 3 for 1.59, ppd.

Bargain Collection

B3132X—1 each of Fuchsia Fairy, Charles Nye, Bonfire, and Pink Opal—all 4 for 1.89, ppd.

B1400—Bonfire. Brilliant, solid double pompon flowers 1½ to 2" across borne in masses on tall stems. Rather late blooming. 59c each; 3 for 1.59, ppd.

B1454—Salmon Precose. Fully double, deep salmon blossoms with the reverse of the petals a light buff. Flowers 3 to 4" across. Plant medium high and bushy. 69c each; 3 for 1.89, ppd.

B1407—Carmine Queen (DePetris). Brilliant 3" double flowers on long stems. 69c each; 3 for 1.89, ppd.

B1455—Samidare. An imported Japanese Chrysanthemum with 1½" fully double flowers. Plants low and bushy loaded with blossoms. 69c each; 3 for 1.89, ppd.

B1443—Pink Opal (Kraus). Gorgeous 1951 introduction. Large, fully double flowers 4" across. 69c each; 3 for 1.89, ppd.

B1409—Charles Nye (Kraus). Compact double 3" flowers. Petals broad and flowers full on long stems. Wonderful for cutting. 49c each; 3 for 1.29, ppd.

B1427—Huntsman (Bristol). Brilliant, fully double flowers 2½ to 3" across. Long stems fine for cutting. 69c each; 3 for 1.89, ppd.

B1428—General Bradley (Corliss). Fully double 2½ to 3" flowers on long stems. Very hardy, compact plant. 69c each; 3 for 1.89, ppd.

B1426—General MacArthur (Corliss). 2½ to 3" fully double blossoms on large, compact plants. Very hardy. Foliage rich deep green. 69c each; 3 for 1.89, ppd.

B1425—General Marshall (Corliss). 2½ to 3" fully double flowers. Compact, bushy plants. Very hardy. 69c each; 3 for 1.89, ppd.

"The Generals" Trio

B3127X—1 each of General Bradley, General MacArthur, and General Marshall—all 3 for 1.79, ppd.

Giant-Flowered Mums Bargain

B3133X—1 each of the Giant-Flowered Mums described above—all 5 for only 2.29, ppd.

CUSHION MUMS

Bloom the first year after planting and grow to a size 3 feet across and 2 feet high, with flowers so solid and thick no foliage shows. Often a thousand blooms to one plant. You never miss a dozen cut daily for the table.

B1412—Pink Cushion. The bright pink that blooms early in the fall. 39c each; 3 for 98c, ppd.
B1411—Bronze Cushion. The best double bronze cushion. Early flowering. 39c each; 3 for 98c, ppd.

B1416—Yellow Cushion. A very early golden yellow. 39c each; 3 for 98c, ppd.

B1414—Red Cushion. The bright red pompon. First red to bloom. 39c each; 3 for 98c, ppd.

B1415—White Cushion. Opens palest pink, turns almost immediately to pure white. 39c each; 3 for 98c, ppd.

B1413—Purple Cushion. Brilliant royal purple. New and showy. Blooms a little later than the others. 49c each; 3 for 1.29, ppd.

3 for Only 85c

B3107X—1 each of Pink, Bronze and Yellow Cushion Mums—will give you thousands of blooms annually—all 3 for only 85c, ppd.

Creeping PHLOX (Phlox Subulata) sometimes called Moss Pink

Our picture shows them growing in rows in our nursery grounds but you will find they make beautiful and useful edgings for the perennials, and fine as bank binders where there is often a wash. Do well in hot and rather dry locations; thrive in full sun or partial shade. Have masses of moss-like foliage which stays green all winter. In spring, the low mound-like plants are covered with brightly colored flowers.

B1673—Brilliant Red. The new bright red.
B1674—Emerald Gem. Emerald green foliage; deep pink flowers.
B1672—Blue Fairy. Reddish green foliage; soft blue flowers.

PANSY Plants

at 75c a Dozen

B2299—These are the giant-flowering, ruffled strain. Great big flowers on long stems and every color imaginable.

Pansies do better and bloom better when fall planted, and, if possible, in

ground enriched with old manure. Mulch with 2" coarse straw or litter after ground freezes. **12 plants for 75c; 36 for 1.98; 100 for 4.79, postpaid.**

PLUME HYACINTH

Miniature Tree Hyacinth

B6533—This is a rather scarce perennial of unusual beauty. Unfortunately, no photograph ever does justice to it; its gossamer beauty must be seen to be appreciated. The flowers are borne in light purple plumes 18" long. Likes it warm and dry. **15c each; 3 for 40c; 6 for 75c; 12 for 1.29, postpaid.**

AFRICAN VIOLETS

Double Delight

Lady Geneva

African Violets want plenty of light, but no direct sunshine. A north or east window is good. Very easily grown and one of the most satisfying of all house plants. We send complete growing instructions with each plant.

2N201—Improved Blue Boy. Most popular of all violets. **2N207—White Queen.** We think this is the best of all whites.

2N202—Pink Beauty. A fine, clear pink. Hard to beat. **2N208—Red Head.** Not a true red but one of the reddest of all African Violets.

Prices on above four: 85c each; 3 for 2.39, postpaid. **2N510X—1 each of the above 4 for only 3.19, ppd.**

2N209—Lady Geneva (Pat.). Illustrated on left. Blossoms of deepest blue edged with frosty white. White edging increases as plant grows older. Good grower. **1.50 each; 3 for 4.19, postpaid.**

2N185—DuPont Hybrid No. 1. Immense flowers of lavender blue; much larger than ordinary African Violet. Leaves also larger. **1.00 each; 3 for 2.89, postpaid.**

2N195—Double Delight. We think this the finest double.

Pictured Violets Bargain
2N603X—1 each of Red King, DuPont Silver Pink, Star Sapphire, Double Delight and Lady Geneva—all 5 for 5.29, ppd.

Flowers very double, very large, of silvery-lilac. **1.25 each; 3 for 3.49, postpaid.**

2N197—Star Sapphire (Pat. applied for). Abundance of large star-shaped blooms of deepest purple set off by triple golden pollen centers. **1.50 each; 3 for 4.19, ppd.**

2N184—Giant DuPont Silver Pink. Flowers very large, even for a DuPont. Its clear, shining pink of silvery sheen impossible to duplicate here. **1.25 each; 3 for 3.49, ppd.**

2N196—Tinted Lady. We like this one. Flowers are light, clear gray-blue and very attractive. **1.25 each; 3 for 3.49, postpaid.**

2N193—Red King. Probably the deepest red of any violet. Robust, compact plant blossoms free of any markings. **1.50 each; 3 for 4.19, postpaid.**

2N198—Double White Purity. Long strong stems. Large double white blooms set amid fine, bright, clear green foliage. **1.50 each; 3 for 4.19, postpaid.**

THE Henry Field Iris listed here are among the country's finest. Some are Dykes Medal Winners; many are included in the American Iris Society's 1952 list of "100 Most Popular." Yet you will find them low-priced—from 39c up to \$2.00 and \$3.00. That's because we grow most of our Iris stock and can sell at our own prices.

When you order Iris, we send you a guide showing just how Iris should be planted. Be sure to mulch the plants the first winter so they will not frost heave.

Henry Field's RAINBOW COLLECTION of

12 Beautiful
IRIS for Only

39

postpaid

No. B3077X

We fill out this collection from the varieties we are "long" on (sometimes the most expensive ones) so you get a bargain collection of every color of the rainbow and we balance our inventory. Good deal both ways.

These are not seconds or culls or damaged bulbs. They are the regular high grade ones just as listed individually right on these pages. Come right out of the same fields. This is a good, honest, old-fashioned type Henry Field bargain.

RED and PINK IRIS

*Starred items pictured on opposite page.

B1378—ORANGE FLAME. One of the most brilliant Iris. Standards are bright orange; falls fiery red. 49c each; 3 for 1.19.

***B1341—FLORA ZENOR.** Pink, like foam on a strawberry soda. Very long stems. 49c each; 3 for 1.19.

***B1350—HELEN FIELD FISCHER.** Named for the famous sister of Henry Field. This Iris is silvery lilac-pink and unusually beautiful. 49c each; 3 for 1.19.

***B1386—RED ORCHID.** Best red Iris we have ever seen. Early bloomer, intermediate type. 59c each; 3 for 1.39.

***B1345—GARDEN MAGIC.** One of the better reds. Color is deep and velvety, with fine form and good substance to the petals. 75c each; 3 for 1.79.

***B1380—PINK CAMEO.** One of the finest of the famous Flamingo pinks. No. 13 of "100 Most Popular." Very, very scarce; our own supply is limited. First come, first served. 2.49 each; 3 for 6.19.

B1388—PINK LACE. This is one of Sass's newest pinks. A descendant of Flora Zenor with the "new look" shade of pink with tangerine beard. 1.49 each; 3 for 3.98.

B1383—PINK SATIN. A Sass Iris. An outstanding clear pink. 39c each; 3 for 98c.

***B1394—RED DOUGLAS.** No. 65 of "100 Most Popular." A magnificent Iris of rich, rosy wine-red. Although one of the older varieties, still one of the best. Dyke's Medal Winner of 1941. 75c each; 3 for 1.79.

B1371—MOROCCO ROSE. Very large-flowered rose pink. Its bright coloring shades into a soft yellow glow at the heart. Very popular and good. 59c each; 3 for 1.59.

B1373—MULBERRY ROSE. No. 21 of "100 Most Popular." Considered by authorities as one of the most unusual new colors developed in Iris. Very large blooms of rich, mulberry rose. Tall stemmed and well branched. Award of Merit 1944. 98c each; 3 for 2.69.

B1349—HARRIET THOREAU. No. 73 of "100 Most Popular." A comparatively new one with very large flowers of orchid pink. One of the finest of its color. Many blooms. 75c each; 3 for 1.79.

***B1246—GREAT LAKES.** No. 16 of "100 Most Popular." Winner of Dyke's Medal in 1942 and one of the most famous of the light blues. Strong stems, and a rugged and hardy plant. 75c each; 3 for 1.79.

B1276—SABLE. No. 25 of "100 Most Popular." One of the blackest of the so-called black Iris. The large, richly-colored flowers make a striking contrast when planted with lighter shades. 75c each; 3 for 1.79.

***B1240—FROSTED GLASS.** A pleasing combination of cream bordered with lemon-yellow. 49c each; 3 for 1.19.

***B1258—MAGIC CARPET.** One of the largest and brightest of the variegated Iris. 98c each; 3 for 2.69.

***B1230—BRYCE CANYON.** No. 12 of the "100 Most Popular." A rich, warm, henna-coppery brown. 1.39 each; 3 for 3.79.

***B1239—FORTUNE.** Rich, solid old-gold overlaid with rust red. Has a solid, rich coloring that sets it apart as one of the finest Iris. 39c each; 3 for 98c.

B1288—WABASH. Still No. 48 of "100 Most Popular." Although an old variety it still is one of the very finest and most beautiful of all Iris. Standards are white, falls are deep blue edged white. 49c each; 3 for 1.19.

B1277—SHARKSKIN. No. 77 of "100 Most Popular." Attractive and unusual. Fine white with a leather-like substance. Flowers stylishly tailored and finished in a pure silken white. Award of Merit in 1946. 75c each; 3 for 1.79.

Rainbow Iris Bargain

B3082X—1 each of the 12 named varieties of Rainbow Iris listed above—12 of the world's choicest Iris—all for only 8.95, postpaid.

← Oriental POPPIES

This is the fourth straight year that Oriental Poppies have been scarce and high priced — except at Henry Field's. Check any other catalog yourself and you will see that this is so.

We didn't have room to picture the following, but they are just as good as those pictured at the left:

B1710—CAVALIER. Large, deep clear scarlet. Very fine new variety. 59c each; 3 for 1.49, ppd.

B1706—GLORY GLOW. The earliest of all. Medium sized double orange blooms borne in profusion. 49c each; 3 for 1.19, postpaid.

B1701—BETTY ANN. A clear, soft pink. 59c each; 3 for 1.49, postpaid.

B1711—AUSTRALIA. Very large, deep blood-red. In our opinion, this is one of the finest of the poppies. 79c each; 3 for 1.98, postpaid.

B1717—LITTLE SHRIMP. Neat little oriental poppy with dainty blooms about 2 inches across. Flowers are a bright shrimp-pink. Grows about 12" high. You'll find lots of uses for this little gem. 59c each; 3 for 1.49.

B1724—RED FLARE. Brilliant scarlet. 59c each; 3 for 1.49, ppd.

B1725—ROYAL SCARLET. Really royal scarlet. Best of all scarlets. 69c each; 3 for 1.79, postpaid.

B1737—WURTEMBERGIA. Huge, brilliant, glowing rose-red. 59c each; 3 for 1.49, ppd.

B1723—RIDGEWOOD. Ruffled orange-pink with black center and stamens. 59c each; 3 for 1.49, postpaid.

Bargain Poppy Collection

B3233X—1 each of the 9 Poppies listed on this page—a 5.49 value for only 4.89, postpaid.

Nursery Stock for SOUTHERN FALL PLANTING

We picked out these items especially for our customers living south of the Iowa-Missouri line. They can plant all these things in the fall. If you live north of that line, don't plant any of these items this fall, excepting as recommended.

Now, if you people living north of Missouri insist on ordering stock not recommended for you, we can't help it. But remember, we told you so.

—Henry Field's

GRAPE MYRTLE

One of the most beautiful and striking of all shrubs. Grows tall and covered with giant clusters of bloom all summer. Perfectly hardy to central Missouri. Every one south of there should plant this. Farther north tops die down, but if well protected will live over and bloom on new wood.

A1417—Red; A1415—Pink; A1416—Purple; Extra select plants: 59c each; 3 for 1.59, postpaid.

A2354X—Crape Myrtle Collection—1 each Red, Pink and Purple, 1.45, postpaid.

GARDENIA

A1433—GARDENIA MYSTERY (Best garden variety)—Almost continuous bloom the year around in mild climates and as a house plant farther north. Medium height, glossy, rich green foliage and huge, spectacular, fragrant, snow-white blooms. Plant in partial shade or filtered sunlight. Needs acid soil. (If necessary you can acidify your soil with our "Acid Soil Conditioner." Order No. 4059—1 lb. 39c; 3 lbs. 1.00, postpaid.) Hardy to 18 degrees above Zero. 12 to 18 in. plants. 98c each.

BLUE HYDRANGEA

A1441—Very hardy. Blooms on new wood as well as old. Flowers large and on acid soil a beautiful blue. In ordinary soil flowers are pink. To make flowers blue acidify soil by adding Aluminum Sulphate. To make pink, add agricultural lime. Prefers partial shade. Needs some protection in north. Vigorous field grown plants. 89c each; 3 for 2.49, postpaid.

IMPORTANT NOTICE

This stock cannot be shipped until it becomes dormant—usually about the latter part of October.

BUTTERFLY BUSHES

A1413—RED GLORY—Brand new, reddest of red. A strikingly brilliant plant. Flowers all summer. 75c each; 3 for 2.10; 12 for 7.50, postpaid.

A1410—ILE DE FRANCE. Loaded with blooms all summer long. Color deep reddish purple. Extra select plants: 59c each; 3 for 1.59; 5 for 2.49, postpaid.

A1412—PINK CHARMING—A really charming true pink. Extra select plants: 59c each; 3 for 1.59; 4 for 1.98, postpaid.

A1414—SNOWBANK—Pure, soft, snow-white. Beautiful alone or in combination with bright colored varieties. 75c each; 3 for 2.10; 12 for 7.50, postpaid.

A1409—MIDNIGHT BLUE—Long spikes of deepest blue flowers with bright yellow eyes. 69c each; 3 for 1.89, postpaid.

A2352X—BUTTERFLY BUSH COLLECTION—1 each of Red Glory, Ile De France, Pink Charming, Midnight Blue for 2.39, ppd.

DOUBLE ALTHEA

(Rose of Sharon)

This is the lovely Rose of Sharon. Grows 6 to 8 ft. tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in August and September when flowers are needed. Flowers look like big roses when open. Red—A1401. Pink—A1400. White—A1402. Extra Select plants. 49c each; 3 for 1.29; 5 for 1.98, ppd.

A2351X—Althea Collection. 1 each red, white, pink and blue, 1.79, ppd. A1404—Althea Coelestia. A beautiful china blue single Althea. Hardier than most varieties. Outstandingly showy. 69c each; 3 for 1.89; ppd.

MAGNOLIA SOULANGEANA

A4259—This is the popular hardy Magnolia; the one with great, pink, cup-shaped flowers. Seldom gets over 12 feet tall. Plant in a sheltered place. Folks south of Iowa should have no trouble but is doubtfully hardy from Iowa north. 18 to 24 in. root wrapped plants—2.49, postpaid.

BLUE MIST SPIREA

A1492—Hardy New Blue Mist—A striking, low-growing shrub from Minnesota that blooms all summer and fall. Never gets over 3 1/2 to 4 ft. tall. Silvery green foliage and spirea-like flowers. One of the very few blue-flowered shrubs. Often dies to the ground in winter in Iowa and north but that won't do any harm. 69c each; 3 for 1.89, ppd.

DOGWOODS—Pink and White

A4215—Of all the flowering trees, none is more beautiful than the Pink Flowering Dogwood.

This is a HARDY Dogwood (except North of Iowa) that should do well for all of you. It does well in partial shade. Is literally smothered with deep pink flowers before the leaves come in spring. 18 to 24 in. size, root wrapped. 2.69 each; 2 for 4.98, postpaid.

A4216—White Flowering Dogwood—Same as above except flowers are pure white. 18 to 24 in. size, root wrapped. 1.69 each; 2 for 3.19, postpaid.

European MOUNTAIN ASH

A4260—Foliage is a beautiful green. Light, smooth bark. A broad head, very compact, with gorgeous creamy white blossoms in spring, followed by clusters of red berries in later summer and fall. Grows rapidly. 4-5 ft. 1.98 each; 2 for 3.79, postpaid.

THOMAS BLACK WALNUT

A4124—Improved budded black. Hardy anywhere that walnuts will grow. Bears very young, often first year after planting. Nuts thin shelled, easily hulled, kernels fine color and excellent flavor, easy to crack out in halves and quarters. Trees also make fine shade. A mature tree will produce 15 to 40 bushels which sell for 4.00 or more per bushel. Plant the trees 40 to 50 ft. apart. 3-4 ft. 2.49 each; 3 for 7.19. Express not prepaid. Extra long roots make bundle too big for parcel post.

PEACHES

PEACH PRICES: 3 to 4 ft. 98c each; 3 for 2.69; 5 for 4.35; 10 for 8.19, postpaid. 4 to 5 ft. quick bearing—1.19 each; 3 for 3.29; 5 for 5.10; 10 for 9.39, postpaid.

DeLuxe Peach Prices

5 to 7 ft. size DeLuxe trees 1.95 each; Express not prepaid. (See descriptions of DeLuxe Grade Fruit on page 20.)

Plant 15' apart; 190 trees to the acre.

A3430—CHAMPION. Hardy white freestone.

A3408—GOLDEN JUBILEE. Red and yellow freestone.

A3414—J. H. HALE. Extra-large freestone.

A3420—POLLY. Super hardy white freestone.

A3410—HALE HAVEN. Freestone, self-pollinizing.

A3423—RED HAVEN. Extra early, freestone.

Freestone Peach Bargain

A2770X—1 Elberta, 1 Champion, 1 Hale Haven. 3 to 4 ft. trees. Only 2.49, ppd.

GRAPE

A1816—Golden Muscat. A miracle fruit. A big, golden California type grape that's hardy in the Middlewest and South. Big golden yellow, juicy grapes in immense long clusters. So sweet you have to taste them to believe it. Each 98c; 3 for 2.59; 5 for 3.89, postpaid.

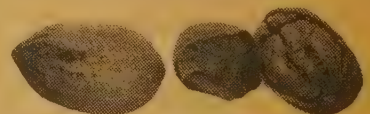

APRICOTS

A3200—CHINESE GOLDEN. Exceedingly hardy. Heavy bearer.

A3211—MOORPARK. Freestone. Big, juicy fruit.

A3202—EARLY GOLDEN. Freestone. Particularly fine for the South.

PRICES: 3 to 4 ft. 1.39 each; 3 for 3.98; 5 for 6.29, ppd.

GRAFTED PECANS

The secret of getting grafted Pecan trees to live is to dig them with a long root. We do. Which is also why we have to ship them express. Pecans are heavy bearers of valuable nuts—will pay your taxes. Also make excellent shade trees. Plant at least 35 feet apart.

A4116—Giant Mahan. (Shown above.) World's largest and most popular. True paper-shell. Highly productive and beautiful tree. 2-4 ft. Trees 3.25 each; 3 for 8.98. Express not prepaid.

A4117—Stuart. Well suited to all sections and soils. Bears regularly. Large, well filled nuts. Big Stuart Pecans grow right here in Shenandoah. Prices below.

A4118—Success. One of the best varieties for midwest and eastern half of U. S. Beautifully shaped tree. Large, oblong nuts that are plump, sweet and of medium-thin shell. Trees self-fertile. Prices below.

Stuart and Success Prices

How to Force Bulbs Indoors

Potted bulbs are just about the easiest house plants there are to grow, and they're pretty, too. With a little forethought and almost no effort you can have a glorious bloom of flowers all winter long.

Narcissus and Hyacinths are usually the best bloomers and the easiest to grow. Paper White Narcissus can be started in water with just enough pebbles, sand or marbles to hold the bulbs in place. Place in the dark and water often. When they look as if they are ready to bloom, bring the plants out in the light and they will soon burst into bloom.

Place Hyacinth bulbs in flower pots and barely cover with rich dirt. Press the dirt down tight and set in a dark place. Water often. When roots have developed and the plants look ready to bloom, bring them out to the light and they will shoot up and bloom in no time.

Transplanting Trees and Shrubs

If you have trees or shrubs to move, don't move them until they are dormant (have lost their leaves). Then you may move them without any trouble if you don't expose the roots to air or sun any more than absolutely necessary.

Amazing Surecrop Hybrid Cucumber

"Gentlemen: Last year we used your Early Surecrop Hybrid Cucumber seed and were absolutely amazed at the results. We fed ourselves, the neighbors, and made about 20 gallons of assorted pickles from them. Here is a picture of our daughter, Mary, with some proof of our fine 1951 cucumber crop."—Mrs. Walter J. Alves, Rt. 3, Guntersville, Ala.

Strawberries Size of Crab Apples!

"Dear Field's: This is me in my strawberry bed last summer. Notice the strawberries in the kettles are as big as crab apples. Some folks thought when looking at the picture that they were small apples. I say if you want plants that yield, send to Henry Field."—Mrs. Jake Noble, Guttenburg, Iowa.

Our Nursery Guarantee

All our stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and it will be replaced or your money refunded, whichever you prefer. After you have planted it, if it fails to grow, we think we should both take part of the blame. We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock if you notify us not later than May 15, 1953. Accompany your report with a remittance of one-half the original purchase price.

If you wonder how we can make such a guarantee, here are some of the reasons:

1. Our nursery stock is all state inspected.
2. Our nursery stock is free from disease.
3. Our nursery stock is of the highest quality.
4. Our nursery stock is true to name.
5. Our nursery stock is mature, live, ready-to-grow stock, first-class in every way.

Don't Plant Trees Too Deeply

We receive a lot of letters asking us about ailing trees. Most of them start like this: "This tree didn't seem to have anything wrong with it when we received it but ever since it was planted it seems to be getting sicker and sicker, etc., etc."

Well, nine times out of ten, the trouble is that the tree has been planted too deeply. This is a very common planting fault and it kills many trees annually. Lots of folks figure that if they plant a tree deep in the ground, they will give the tree more support against the wind. But, by doing so, they plant the tree so deep they suffocate the roots. Roots must have oxygen and if they are buried too deeply in the ground, the tree, over a period of years, suffocates.

A tree should be planted the same depth it was planted in the nursery field. You can almost always determine this depth by finding the little ring of discoloration that developed at the ground line. Then, after planting the tree at the proper depth, support can be provided when and if needed.

Another thing that sometimes bothers an older tree is that it gets sod-bound. So much grass has grown under the tree it doesn't get the proper amount of moisture and plant foods. Best remedy is to dig up the grass, roots and all, and feed and water the tree. Remove the sod as far out as the limbs extend and water all the way out, giving the ground a good soaking.

Little Buckaroo

"Dear Mrs. Field: With this order I am enclosing a snapshot of our little buckaroo, Gary Douglas Campbell. We have been away from the farm for several years, but are back again now and happy to be here. And of course we turn again to Henry Field's for seeds."—Mrs. Willard Campbell, Rt. 1, Hurdland, Mo.

Cuts Teeth on Carrots

"Dear Mrs. Field: I am sending you a picture of my two youngest children. As you can see, both are enjoying a carrot. The little girl (about 8 months old in the picture) practically cut her teeth on Henry Field carrots."—Mrs. Henry DeLong, Star Route, Deerwood, Minn.

Dormatone Prevents Potatoes from Sprouting

You can now store your home-grown potatoes for months without cold storage by using Dormatone, the new hormone sprout inhibitor that prevents sprouting, softening and shriveling.

Use of Dormatone actually eliminates spoilage and large loss of weight. Shrinkage is cut down 10% to 15%. In addition, it helps retain the nutritional value of potatoes and actually improves their cooking and eating qualities. And, Dormatone can also be used with equal success on other root crops, such as beets, carrots, turnips and rutabagas.

It's easy (and inexpensive) to use—you just dust it on. Absolutely harmless, too. We've tried it on all sorts of root crops and are completely sold on it.

Order No. 4053. 12-oz. sifter can (treats 8 bu.) for \$1.00, postpaid.

Thanks for Free Gift

"Dear Sirs: Wanted to let you know that I appreciate the nice free gift you sent. Also, that the rose bushes were all very nice. Best I have ever had."—Lawrence Huckman, Box 272, Okene, Okla.

CONTEST

\$25 to Person Sending Best Snapshot of Potatoes Grown from H.F. Potato Seed Sets

To the person sending in the best snapshot and story about the success of the potato seed sets bought from us last spring (1952), we will give \$25.00.

Write as long or short a story as you wish. Send your snapshot and letter to POTATO SEED SET CONTEST, Henry Field Seed & Nursery Co., Shenandoah, Iowa.

Contest closes Oct. 1, 1952. We will notify winner shortly thereafter and publish picture and name of winner in next issue of Seed Sense.

Calla Lilies for Potting

We have some dandy Calla Lily bulbs that are ideal for potting. They're big, healthy bulbs that will make tall, stately blooms and fine, beautiful foliage. Calla Lilies are easy to grow and require only ordinary care. Really are hard to beat for a potted plant. Full directions with each order. Come in three colors.

White—BG411. Yellow—BG412: 40c each; 2 for 69c. Pink—BG417 (a new, different, rare type): 50c each; 2 for 89c. Collection of one each of all three colors—BG592X, only \$1.09. All prices postpaid.

Bulbs Need Plant Food

Before spading a bed, spread over it 4 pounds of balanced chemical plant food for each 100 square feet and spade it under. You'll be surprised at how much this will improve the blooms.

Beautiful New Strain of Madonna Lilies—the Cascade Strain

Last year we came to the conclusion that the new Cascade strain of Madonna Lilies is by far the best on the market. In our own flower plantings we have found that its vigor, size of blossoms and disease resistance make it far superior to any other strains of Madonnas.

The Madonna Lily (*Lilium Candidum*) is the oldest Lily in cultivation (and probably one of the oldest of all flowers in cultivation). This new Cascade strain is the first real improvement in our time on Madonna Lilies . . . and the improvement is tremendous! There just isn't any comparison between this new Cascade strain and the old regular Madonnas, including the very fine French bulbs that we always offered in previous years.

Last year in our gardens, the Cascades attained the height of 5 feet or more, with huge, strong spikes of very large, pure white lilies. (It is rare for us to have the ordinary Madonnas reach a height of over 3 or, at the very most, 4 feet.)

To show you how disease resistant this strain is, we noticed here in Shenandoah last spring that the regular Madonnas were, in many places, ruined by Botrytis—a fungus disease caused by excessive moisture. Many of the leaves of the regular Madonnas were destroyed and even some of the flowers were discolored. But the flowers of the Cascade strain were normal in every respect, the plants bloomed beautifully and without even the slightest sign of this disease in most cases.

These Cascade Madonnas make strong stalks and are literally loaded with big, fragrant, virgin-white flowers from the top clear down to where the leaves begin. We've never seen such magnificent Madonna Lilies and we doubt very much if you have, unless you were one of the customers who bought some of these Cascade strain bulbs from us last fall, when we offered them for the first time.

Because of the many superior qualities of this new Cascade strain of Madonnas, it gives us great pleasure to be able to make these bulbs available to you. We guarantee they will give you complete satisfaction. Just plant the bulbs 3 inches deep, give ordinary lily care and you'll have the loveliest Madonna Lilies you ever saw.

Order No. B5018. 59c each; 3 for \$1.49, postpaid.

Giant Hybrid Amaryllis

One of the most striking flowers you can grow indoors is the Giant Hybrid Amaryllis. In fact, it's one of the most beautiful and spectacular bulb plants there is. Our hybrids have big, wide-petalled flowers, averaging 4 to 6 inches across, and often have 10 or more blooms on a stem. Coloring is gorgeous. Ranges from almost white to a real dark red with very delicate shadings.

Planting and care is simple. Just put a bulb in a pot with ordinary soil, keeping the neck and about one-third of the bulb protruding. Put in a cool, shaded place. Water sparingly until several inches high. Then bring out of the shade, give plenty of water and keep at a temperature of around 70 degrees. More directions come with each bulb.

Order No. BG401. Mixed colors only. 59c each; 2 for \$1.10, postpaid.

Why You Should Fall Plant

Fall planting is becoming more and more popular. We've been preaching it for years and now the state experiment stations are heartily recommending it. With the exception of a few varieties of plants that should only be planted in the spring (these are not included in this catalog) there are distinct advantages in fall planting and here are a few of them:

- (1) **Plants get six-months head start.** The roots of fall planted stock do considerable root growing in the late fall and early spring and become established well ahead of spring planted stock.
- (2) **Stand up better.** Because they're established, and since they have had the benefit of early moisture, the plants can take the first hot, dry summer weather better.
- (3) **Often bloom first spring.** Fall planted plants often bloom the first spring, as they are sufficiently established to do so.
- (4) **People can usually put in a better garden.** Because most people are busier in the spring than in fall, they don't put in nearly as many plants as they would like. In the fall you can do more leisurely, careful, and, therefore, better planting.

Since you have to order spring blooming bulbs, such as Tulips, Hyacinths, etc., in the fall, just add on whatever nursery stock and perennials you would like. We'll send you first-class stock, in first-class condition and you can see for yourself how successful fall planting is.

Mitee Soot Destroyer Rids Your Furnace of Soot— Easily, Safely

Here's a product that is just the thing for cleaning soot and carbon from furnaces, stoves and chimneys. And it is easy, safe and inexpensive to use.

Mitee Soot Destroyer, which is a non-explosive powder, is chemically perfected to destroy soot and carbon in coal, oil or wood-burning furnaces, stoves, boilers, etc., and in chimneys. You merely put the required amount of powder into your heating equipment when the fire is going and that's all there is to it.

If you have never cleaned the soot and carbon out of your heating equipment, we suggest you use a can of Mitee Soot Destroyer this fall. By using it, not only will you get more heat from less fuel, but you will eliminate the danger of flue and chimney fires caused by excessive soot and carbon.

We guarantee it to do the job or your money back. Simple directions on each can.

Order No. 4049—Mitee Soot Destroyer. 1-lb. can (normally enough for several cleanings), 50c; 3 1-lb. cans, \$1.35, postpaid.

Indian Chief Daffodil New, Different, Showy

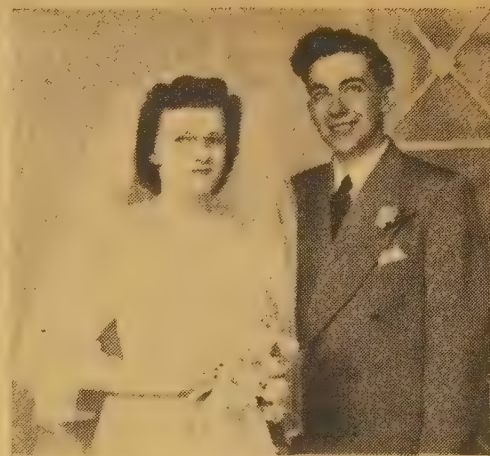

We ordered the bulbs of this very unusual new Daffodil and then found we didn't have enough room to list it with the other Daffodils in the regular catalog section. But we don't mind that too much because by offering this new variety here in the Seed Sense section we can tell you more about it. (It's impossible to put much description with the offers in the regular catalog section because of lack of space.)

Indian Chief is a new, large, double Daffodil. It has beautiful double flowers filled with petals of soft yellow. And, scattered here and there throughout each flower are bright orange-red petals that look very much like feathers in an Indian chief's bonnet. Really very striking and different.

It is a tall growing variety, having long, strong stems. This, of course, makes it ideal for cut flowers.

Because of its colorful, spectacular flowers, Indian Chief will make one of the most attention-getting plantings in the garden. Rest assured that no one will miss it when it is in bloom!

Order No. B6612. 3 for 60c; 6 for 98c; 12 for \$1.75, postpaid.

Bride and Groom

"Dear Mrs. Field: I'm sending in our wedding picture for a free wedding rose bush. My husband and I sat down last night and made out our garden seed and nursery order. I can hardly wait until we can make our garden. Thank you for the rose."—Mrs. Neil Oestreich, Rt. 1, Sullivan, Wisc.

Congratulations, Mr. and Mrs. Oestreich. We hope you will enjoy for many, many years the nice rose we have sent you.—Mrs. H.F.

Nicest Garden Ever

"Dear Mrs. Field: This is my second year with you and I know there will be many more. I had the nicest garden last year of all I have ever had."—Mrs. Nora Lambe, Box 663, Edmore, Mich.

Free Wedding Roses

To persons sending in a picture of their recent wedding, Golden Wedding anniversary (50th), or Diamond Wedding anniversary (75th), we will send a free rose bush. Reason we do this is that we want our friends to have them as a sort of a personal gift from us. Just send a photograph and tell us all about it. If you don't have a picture, send an announcement, though we'd prefer a picture. Can't tell you what kind of rose we will send, but you can be sure it will be a good one. And we'll send it at the proper planting time.

Simple Formula for Fall Planting

I give you just two words to remember in connection with successful fall planting. They are "mulch" and "mound."

You do both to protect the newly-planted plants from frost heaving.

You mulch the perennial flowers and strawberries. But since they have fleshy crowns, don't mulch until after the ground freezes.

You mound dirt over or around trees, bramble fruits and shrubs, and remove it gently the following spring.

About pruning. Yes, you can prune established trees and shrubs in the fall. But don't prune the things you are setting out this fall—prune those next spring before growth starts.

Evergreens Need Water All Winter

Please see that your evergreens go into the winter with a good supply of water down in the ground around their roots. Unlike the plants that go dormant, evergreens stay awake all winter, and need more water.

After the top crust of soil has frozen, not much moisture finds its way from the ground surface down to the roots. So give your evergreens a good, big drink this fall before the ground freezes.

A Green Thumb for African Violets

A lot of our friends have been telling us of the success they have in feeding their African Violets with Henry Field's Green Thumb Plant Food.

Yes, it is very good for all house plants, and it is so easy to use, and so clean. It also is non-poisonous and odorless. Just put 1 tablespoonful of Henry Field's Green Thumb in a gallon of water and use it to water your African Violets and other house plants. It will help keep them healthy and pretty.

More People Fall Plant Every Year

Now I am not going to give you a lot of talk here on the advantages of fall planting, but I do want to tell you that each year more and more people do fall plant a lot of things.

Mr. Field started preaching fall planting a number of years ago, when it wasn't very popular. But he knew the idea was sound, and kept plugging away at it. Now thousands and thousands of our friends and customers do some planting every fall.

I Like Merion Blue Grass

I thought you might be interested in my personal experience with the new Merion Blue Grass. Last fall I sowed my back yard with it because, frankly, I've been fighting crab grass and weeds out there for some time. Now I have a thick, beautiful lawn and the crab grass and weeds have disappeared. The Merion Blue Grass simply crowded them out.

We'll Have a Soil Conditioner for You

I suppose you have been reading a lot in the newspapers and magazines about the new soil conditioners. We have been following the whole procedure for some time, and we are testing a number of different brands of these soil conditioners.

After running our tests, we will choose one for you and have it in our Spring 1953 catalog. Won't say too much about it now, excepting to say it's all exciting, shows considerable promise—but we hope the prices will come down.

Tell you more about it next spring.

Strawberry Plants When You Want Them

I wonder if you realize that we are offering something rather sensational in strawberry plants this fall?

In the past, it has been the practice of nurserymen to dig their strawberry plants for fall shipment sometime in late fall, seldom before the last of October. The plants just didn't go dormant before that time. But Henry Field's can ship you beautiful strawberry plants for fall planting on any date you want them.

We have learned how to dig the best plants in the spring,

My! Don't I look happy here? And I was, too. This picture was taken last May when I was setting out some plants in the flower garden behind my home.

There is nothing that makes me feel so good as to get out and work in my flower garden. I'm very fond of flowers and get so much pleasure from them. They're a great comfort, always, and help to smooth out the rough places in life as nothing else can do.—Mrs. Henry (Bertha) Field.

P.S. Wish you could see how big and pretty the flowers are now.

hold them dormant in cold storage during the summer and ship them to you anytime you want them for fall planting. They will be in just the right condition to get rooted and get some growth this fall before winter sets in. Now don't expect plants in full leaf. That is just the kind of plants we don't want.

These Roses Can Take It

We now are selling more of the Brownell Patented Hybrid Tea Roses than all other patented tea roses put together. There's a reason. The Brownell roses not only have beautiful flowers and foliage, but they are extra hardy. They will stand temperatures down to 25 degrees below zero without killing out.

We have a lot of these Brownell roses growing here at our seedhouse in Shenandoah. Just to test them, we have left some of them for four winters now without any protection such as we normally give tea roses. We don't give them a covering of any kind, don't mulch them or mound dirt up around them—just let them go into winter on their own. Haven't even trimmed them. Each spring they have grown again and put out beautiful flowers and lots of them.

If you have a copy of our Spring 1952 catalog around your house, look at the picture on page 46, upper left-hand corner. Those are some of the bushes we are talking about. Brownell bushes—five feet tall and loaded with blooms.

No wonder so many of our customers are buying Brownell Patented Hybrid Tea Roses.

—Bertha Field

P.S. The "Henry Field" is a Brownell rose too.

Are You Getting Two Catalogs?

If your family is getting more than one catalog, we would sure appreciate knowing it. We send out a catalog to each name on our list, but sometimes different members of families or different people at the same address order from us and each different name is put down. So, two or more catalogs are sent to the same address, and because of this we sometimes don't have enough copies to go around. If you do have an extra catalog please do us a favor by passing it on to a friend, and then let us know about it on the coupon below. Thanks.

"Nearly Wild" Brownell Hybrid Rose—the Perfect Shrub Rose

For several years we have listed in our catalog a Brownell Hybrid Rose named Nearly Wild. Nearly Wild isn't like the rest of the Brownells, most of which are Hybrid Tea Roses. In growth, it is more like the old Polyanthus Rose, making a broad, round shrub from 2 to 3 feet high and 3 feet across. From June until freezing time it is loaded with clusters of beautiful, bright apple-blossom pink and white single roses, each the size of a silver dollar. It also resembles in many ways the old Floribunda rose, Else Poulsen—although there is no comparison as to beauty, Nearly Wild being much prettier.

The reason we haven't talked too much about this rose before is because it is a single, and it has been our belief that people aren't too fond of single roses. However, when we visited our rose grower recently, we noticed that out of the hundreds of varieties of roses he has to choose from, he selected Nearly Wild to plant around his home. When we asked him why he chose Nearly Wild he said it was because both he and his wife thought that it was one of the most beautiful of all roses, and that it is the perfect shrub rose. He mentioned that when women in the area came to the rose fields around his house and saw Nearly Wild in bloom, they wanted to buy it then and there.

One of the nicest things about Nearly Wild is that it is a prolific bloomer. When we checked the roses in our rose fields in June, it had more flowers than any other variety . . . and we know that will also hold true in September!

It's a very useful, practical rose, too. Makes a dandy variety to plant around the new one-story homes, around screened porches, along walks, along drives, in cemeteries, in front of shrubbery or mixed in with shrubbery. Wherever you put it, it makes one of the most beautiful low growing flowering shrubs you can imagine.

And, it is absolutely hardy, having a "cast iron" hardness that is usually found only in the northern wild roses. Because of this, you can count on it blooming beautifully year after year.

If you are looking for a new rose to plant this fall, one that is just a little different, yet one very beautiful and useful, we suggest you try Nearly Wild. We know you will thank us for calling it to your attention.

Aluminum Tree Protectors

Keep Rabbits from Killing Your Young Trees and Shrubs

We have just the thing to stop rabbits from gnawing and girdling your young trees and shrubs and to prevent sun scald. It's our Aluminum Tree Protector—the newest and best tree protector we have ever found. Rabbits positively won't bother your trees after you put them on.

They are sheets of aluminum 10 inches by 18 inches. You just wrap them around the tree and crimp the edges. They fit any ordinary size young tree and will last for several seasons.

They're cheap, too. For just \$1.50 (about the price of one tree) you can protect a whole yard full of trees or a small orchard. At this low price you really can't afford to risk your trees and shrubs this winter.

Order No. 4076—25 for \$1.50; 50 for \$2.65; 100 for \$4.25, postpaid.

Baby Tears Vine

Didn't have room for this on the house plant page, so we are putting a short write-up about it here in Seed Sense.

The popularity of this attractive little vine amazes us. It seems as though everyone who sees it, or even sees a picture of it, wants it. The unusual thing about Baby Tears is that it makes a beautiful, green cascade down the sides of whatever it is planted in. (Doesn't grow so much as to become a nuisance, though.) Its leaves are tiny, round, neat and clean, and are borne in great quantities. As the vine climbs over the edge and down the sides of the container, it looks for all the world like a little green fountain.

It's easy to grow, too. Grows well under ordinary house conditions as long as it has sunshine. (It is not a shade-loving plant.)

The brilliant green coloring of this plant will make it a welcome addition to your home during the bleak winter months. And, during the summer you can plant it outside in window boxes, porch boxes, etc., where it will do fine.

Order No. 2N418. 39c each; 3 for 98c, postpaid.

Order Received in Fine Shape

"Dear Mrs. Field: I have received my order of plants and bulbs. I don't believe I have ever sent for anything that came through the mail looking so fresh and lovely."—Mrs. Flossie L. Nichols, 816 Dodge St., Delta, Colo.

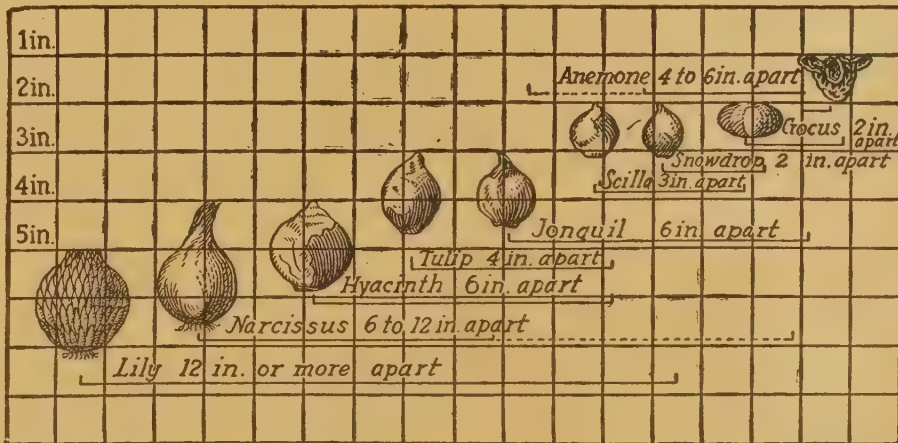

Begonia Blooms Big as Golf Balls!

"Dear Mrs. Field: I am sending a picture of my 4-year-old niece, Thelma Sue Willis, standing beside a Double Rose Bud Begonia I ordered from you last year. It is really a beauty, with some blooms almost as big as golf balls."—Miss Oleta Scott, Rt. 3, DeQueen, Ark.

\$1.00 for Your Snapshots

Sure, we still need and want your snapshots. Couldn't put out a Seed Sense or catalog without them. Then too, we here at the Seed House enjoy looking at them because they give us an idea of how our seeds and nursery stock are doing. They also help us get to know you better. So come on and send us your extra snapshots. Send us pictures of your children, your homes and farms, crops, vegetables, flowers, etc. Of course we can't use all the snapshots we receive, but we'll pay \$1.00 each for those we do use.

(Don't send negatives as we cannot use them. We also suggest that you do not send us pictures you may want back, as we like to keep all we receive.)

Plant Bulbs in the Fall for Spring Beauty

Take care in planting fall bulbs to see that they have every chance of success and play their full part in beautifying the garden. The above Bulb Planting Depth Chart will show you the depth and distance apart to plant bulbs. If the ground has been newly spaded, and is quite loose, the depth should be increased an inch or so to allow for settling, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs, which have no opportunity to make roots before the soil freezes, may be set a little deeper to protect them from frost action.

Ready to Make Another H.F. Garden

"Dear Mrs. Field: I am enclosing a picture of my son, David Eric, and his grandpa, getting ready to make another Henry Field garden. We always have a good garden with Field's seeds. We especially enjoy the popcorn and sweet corn."—Mrs. J. L. Crumley, Rt. 3, Richland, Mo.

To carry care to bed is to sleep with a pack on your back.

How We Ship to You

If some of you folks who have sent in large orders don't get everything at the same time, it probably is because we have split up your order according to when different items should be planted. Orders are filled when stock is in best condition and during proper planting time. Seeds and non-perishable goods are sent immediately. But perennials, house plants, evergreens, bulbs, etc., are sent in separate packages, even when sent the same day as the rest of your order.

So you needn't worry if you don't get everything at once. Just read the papers that come inside the package. They will give you full details.

"Green Thumb" Phlox

Here is a picture of Deanna Fraser, age 4, standing in front of a big red phlox. Her mother, Mrs. Clara Fraser, 639 S. Snyder, Fremont, Nebr., says she got the phlox in one of our "Green Thumb" perennial collections and that it grew into a truly beautiful plant.

Our Merion Bluegrass Mixture Will Give You a Prettier, Healthier Lawn

Our new 100% perennial grass mixture containing the sensational new Merion Bluegrass is the best grass mixture we have ever offered. The lawn it produces is velvety smooth, a dark lush green in color, stays green even in hot and dry summer months, helps crowd out Crabgrass, has great disease resistance and doesn't need to be mowed nearly so often as most lawns!

This mixture contains 30% Merion Bluegrass. Merion produces healthy, dark green plants that spread farther than ordinary Bluegrass, due to their underground root stocks. In addition, Merion is resistant to leaf spot, heat and drouth and helps kill out Crabgrass. Another nice thing about Merion is that it "stays awake" all summer long. It doesn't go to sleep during hot, dry weather like so many other grasses—instead, it keeps right on growing and thriving.

Added in this mixture is 50% Creeping Fescue to thicken the turf. This grass grows well in shade and is adapted to all types of soil.

Then we have included 10% Highland Bent Grass—the most disease and drouth tolerant of all the Bents, and 10% Red Top for thin soils, wet low spots and to act as a nurse crop.

All in all, this is about the most perfect lawn mixture you could ask for. Plant it this fall and have a beautiful lawn next spring.

The seed in this mixture goes more than twice as far as most grass seed mixtures, so figure 1 pound per 750 sq. feet.

1 lb. \$2.45; 3 lbs. \$7.15; 5 lbs. \$11.50; 10 lbs. \$22.50, postpaid. Hurry your orders in as our supply of seed is limited.

The surest way not to fail is to determine to succeed.

New Merion Bluegrass

For those of you who want the pure Merion Bluegrass to plant in a new lawn or add to an old one, we can supply you with a limited amount of seed.

Here, in short, are the main advantages of Merion Bluegrass:

- (1) Has an excellent dark green color and appearance.
- (2) Helps crowd out Crabgrass and other weeds.
- (3) Is highly resistant to heat and drouth—stays dark green even in the hottest, driest weather.
- (4) Has high resistance to leaf spot and other diseases.
- (5) Requires less mowing.

(6) You use less seed when planting because plants spread fast.

We know that Merion is every bit as good as we say it is. Mrs. Field planted a new lawn of it behind her house just last fall, and you should see it now. It is as thick as a carpet, healthy and beautiful. You would swear the lawn was four or five years old. We've never seen anything like it!

If you want some of this finest of all Bluegrass, place your order soon. We sold out early last year and the Merion crop is even shorter this fall. Use 1 pound of seed per 750 sq. feet of lawn surface.

1 lb. \$4.75; 3 lbs. \$13.65; 5 lbs. \$21.75, postpaid.

Reed Canary Grass

Fall is the best time to plant Reed Canary Grass. Seeding rate 6 to 8 pounds per acre. Excellent for low, wet soils, gully control, drainage ways, etc. On good fertile soils add 1 to 2 lbs. of Ladino Clover in the spring. Makes ideal pasture and hay. More of it being planted every fall. Plant in August and September. See price list on opposite page.

Lincoln Brome Grass

Lincoln Brome is the leading pasture grass in many areas of the Middle West. Brome grass is second to no other grass in the combined qualities of palatability, grazing yield, drouth-resistance, winter-hardiness and seed production. Seed in late summer or early fall, especially in August and September. Seedbed should be firmly packed before and after seeding. Seeding $\frac{1}{2}$ inch deep is best at 12 to 15 lbs. per acre. Alfalfa and Ladino clover make an ideal combination with Brome. Plant Lincoln Brome produced right here in the heart of the brome district. Tops in purity, germination and free of cheat or bad weeds. See price list on opposite page.

Hardy Washington Alfalfa

Our Washington Alfalfa seed is winter-hardy, coming from the Yakima valley where temperatures in winter reach 25 degrees below zero. This alfalfa has really made a name for itself the past four years. During this time millions of pounds of Washington seed have been planted throughout the entire Midwest states. You will like it, too. Priced below most other alfalfas, we consider this lot of Dakota 12 type one of our best buys. Bright color, high purity and germination. Order early for fall planting. See price list on opposite page.

Lot Hardy Grimm Alfalfa

Our Lot Hardy is strictly northern-grown Grimm Alfalfa. It's fancy quality Alfalfa at a saving in price. This lot of northern-grown seed is fully 97% pure—free of bad weeds. Don't worry about winter hardiness on this fine lot of Grimm, as the long-branching roots help prevent winter heaving. The color is not as bright as our top quality, but the value and hardiness is there. We sold more of this lot last spring than any other Alfalfa. Because of the Alfalfa shortage, we suggest you order this early as the supply is very limited. See price list on opposite page.

Certified Ranger Alfalfa

This fine lot of Certified Blue Tag Ranger Alfalfa was grown from hardy foundation seed stocks. Sealed in bushel bags, there is none finer. Well worth the difference in price over common Alfalfas.

Ranger is wilt resistant, producing high yields of leafy, fine stemmed hay and lots of it. Extremely winter hardy and long lived. Our sales have tripled the past year on Ranger seed. You can't beat it for quality in purity and germination or color. Early purchases make our low fall price possible. This is by far the lowest price that Ranger seed has been offered for since its introduction. Get yours early while we have it for you. See price list on opposite page.

Like H.F. Seeds

This picture, sent in by Aubrey D. Matthewman, Rt. 2, Florissant, Mo., is of his sons, Billy and Bobby, and some of their Henry Field pumpkins. Mr. Matthewman says the boys are a big help with the dishes and general farm work. And, he adds, "we sure like Field's seeds and the vegetables they produce."

Ladino Clover

Ladino clover has everything for the livestock farmer. Easily worth \$100 per acre to egg producers. Also a favorite feed of dairy cattle, beef, hogs, sheep and poultry. Ladino is high in protein content—as high as 28% in tests; rich in vitamins and minerals, too. Grows 14 inches or higher on most fertile, well-drained loam soils, clays or heavier soil type. Really a giant White Dutch Clover but much more valuable for pasture and forage. Plant 1 to 2 lbs. per acre. See price list on opposite page.

Finest Chickens

"Dear Friends: The 100 Master Grade White Rock baby chicks arrived in good shape. They are the finest chicks I have had for a long time."—Mrs. Fred Woodruff, Rt. 4, St. Joseph, Mo.

Bug Dust Protects Bulbs

Here's a useful tip and one that may save some of your prize bulbs. Before you set them out this fall, put some Henry Field Bug Dust in a paper sack and then put in a few of your bulbs. Shake the sack up and down gently so that you will get a good covering of Bug Dust on all bulbs. This dusting will protect the bulbs while in the ground from insects, fungi, and even mice and moles because it's both an insecticide and a fungicide.

Best Popping Corn You Ever Ate

Nothing like a bowl of good popcorn on those long fall and winter evenings. Popcorn has been a specialty with us for many years. We try all the new varieties as soon as they come out and we've introduced some of the finest of the newer hybrids, so you can see we do know good popcorn. We, therefore, sell only the best.

This fall we are very fortunate in having two extra-fine varieties. Both are hybrids and simply cannot be beat for flavor or quality. Every bit of the corn is guaranteed to pop.

190—Yellow Hybrid South American. Pops big, creamy yellow flakes. 5 lbs. for \$1.00.

191—Hybrid White Hulless. The small, white kind. 4 lbs. for \$1.00.

(We pay postage on these to Zone 4. Beyond add 20c.)

P.S. With each order we will enclose a leaflet of popcorn recipes.

Nature is the art of God.

Prize Banana Melon

"Dear Friends: Here is a picture of one of my prize Banana Melons grown from your seed. This melon measured 22 1/2 inches long and weighed 12 1/2 lbs. I also had a Field's Giant Muskmelon that weighed 11 1/4 lbs. Everyone who saw my garden marveled at the size of my fine melons."—Mrs. Walter Anderson, 2805 Cedar Drive, La Marque, Texas.

Green Thumb Plant Food

If your plants get hungry and sickly, with yellow leaves, stunted growth and colorless flowers, they need food, water and cultivation. You can either spend hours fertilizing these hungry plants or you can use Henry Field's "Green Thumb Plant Food" and do a better job in a shorter time. And we don't know of anything better for starting newly planted things off right. Besides being an excellent food for indoor and outdoor plants and flowers, it works equally well on lawns, shrubs, trees and vegetables. (Incidentally, we've recently found that it does a fine job on African Violets.)

One 16-oz. package of our Green Thumb-Plant Food makes 32 gallons of liquid fertilizer. Full, simple directions on package tell how much to use for various plants, trees and lawn. It's easy, safe, and inexpensive to use. You'll be surprised at how little it costs. You'll also be surprised at the results!

Order No. 4041—16-oz. package Green Thumb Plant Food only \$1.15, postpaid.

A chance seedling, one in a million, that hit square, retaining all the good qualities of both parents. Very high quality and honey-sweet. Extra large and deep red thru and thru. Unsurpassed freezer; does not mush when thawed; requires little sugar. Very high yield; 4,000 quarts were picked from one acre! Crown and root system very large. 10 for 2.98; 25 for 5.00; 50 for 8.49; 100 for 14.98; 200 for 26.00; 500 for 55.50; 1,000 for 97.50. All postpaid.

Why Fall Planting Is Better for STRAWBERRIES

Fall Planting gives strawberries a running start for next spring. Just mulch them well after the ground freezes. Don't use dirt. Use straw or some litter that will not pack. No leaves. You folks from middle Missouri south can plant on into the winter, depending how far south you are. North of Missouri, strawberries can be planted in October. Be sure to mulch well right after the first freeze.

Henry Field's STRAWBERRIES

Here's How Field's Give You Better Plants for Fall Planting

We are delighted that we are now able to offer you fine dormant strawberry plants—available on any date you want them—for fall planting. Just write the date you want them on your order.

These will be dormant plants in just the same condition as they were when placed in storage. They have some green leaves, but not many. (Green leaves mean nothing. The new growth comes from the crown.) The important thing is that they are in just the right condition to get rooted and some growth on before winter.

This certainly is a great step forward from the small fall-dug plants (never ready before last of Oct.) always offered by nurseries up to this time.

IMPORTANT—Be sure to mulch your strawberries with 2 to 3 inches of coarse litter (rye straw, pine boughs, etc.) at freezing time.

New WARFARIN Best of All Rat and Mouse Poisons

Sensational new Warfarin is by far the most effective rat and mouse poison on the market today. If used according to directions, Warfarin never fails. It wipes out whole colonies easily and inexpensively!

The reason Warfarin is so effective is that it is an anti-coagulant, causing the rodents to bleed to death internally. The rats die slowly and painlessly—but surely!

Warfarin is a better rodenticide for these four reasons:

(1) It is much less dangerous to humans, livestock, pets and poultry.

(2) You don't have to bother with two different poisons. Warfarin gets both rats and mice.

(3) Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."

(4) Warfarin kills slowly. Dead and dying rats do not warn the rest of the colony.

Discovered at the University of Wisconsin and released in 1950 for general distribution, Warfarin is now on the market under several different brand names. Naturally, we think that our "Henry Field Warfarin Rat and Mouse Killer" is the best of all. It's in the concentrated form. You just mix it with bait, such as laying mash—ground oats or corn meal, put it where the rats and mice can find it and it will do the job. Never fails! Fully guaranteed. Simple directions on each can.

Order No. 4070—Henry Field's Warfarin Rat and Mouse Killer. 4-oz. can (makes 5 lbs. bait) \$1.75; 8-oz. can (makes 10 lbs. bait) \$3.00, postpaid.

Live Up to Our Claims

"Dear Field's: Keep up the good work. You really live up to what you claim in your catalogs. And that, these days, is pretty rare—from my experience."—Mrs. Troy Smith, 303 N. School, Normal, Ill.

76th Wedding Anniversary

"Dear Mrs. Field: I am enclosing a 76th wedding anniversary picture of two of your old customers. They are Mr. and Mrs. B. F. Hartley, of Sagle, Idaho. Both are 92 years old. They have been customers of yours since 1907. Mrs. Hartley is especially fond of flowers so the free anniversary rose you offer will be greatly appreciated."—Mrs. Leo Hartley, Sagle, Ida.

Our sincere best wishes to Mr. and Mrs. Hartley. It is a pleasure to send an anniversary rose to such fine old friends. —Mrs. H. F.

Henry Field's HARDY RASPBERRIES

A Lot of Fruit from a Small Space

If you want a lot of fruit for little money, want it quick, and without doing much work—grow berries. If you don't have much room, plant them in corners or along the edge of your lot. There's nothing better for hand eating, pies, jellies, jams, and breakfast—and to put some cash in the sugar bowl on the mantel. Go the limit on berries.

NOW a DeLuxe Grade

of Apple, Pear, Peach, Plum, Cherry

— Offered Only by Henry Field's —

We now make available to you a DeLuxe Grade of fruit trees. These trees will make faster growing, better shaped, quicker bearing trees for you. They are extra-select jumbo-size, the very finest of their kind.

What Our DeLuxe Grade Means

It means that: (1) you get well-branched, heavy rooted, straight-trunked, jumbo-size trees; (2) roots of trees are specially wrapped in moist moss, which keeps trees in live growing condition; (3) proper pruning points painted on branches; (4) proper planting depth is indicated on trees; (5) complete directions given on best way to handle the trees. All in all, it means you get the best of the biggest, quickest bearing trees.

Unconditionally Guaranteed

Because we are so confident you cannot lose one of these trees, we unconditionally guarantee each tree to be in vigorous growing condition one year from date you receive it. If not, we will replace the tree absolutely free.

DeLuxe Fruit Tree Prices

These trees are so big they must be shipped Express Not Prepaid. When ordering give nearest Express station.

Big Jumbo-size selected trees.

Pruning points marked plainly with white paint.

Tag gives complete detailed planting instructions.

Proper planting depth marked with white paint.

Roots enclosed in moist moss wrapped in waterproof paper. No damage or drying out.

Fruit Fall Planted GAINS 6 MONTHS

Any fruit listed here can be fall planted. Just leave a mound of dirt around the base of the tree until spring to prevent heaving. In very cold climates, bury the stock in a trench, top and all, and mound dirt over the trench to shed water. When dug for spring planting, they will be in a beautifully fresh condition.

Remember, it is often the last of October before fruit trees become dormant enough to dig in our nurseries. So don't expect delivery before that time. You can plant fruit trees any time up until the ground freezes too deep to open up.

PEARS

Pears are very heavy bearers, and they're such beautiful trees you can plant them on the lawn.

RHUBARB

A1955—Famous Chipman's Canada Red—This new rhubarb was recently introduced from Canada. It's the best of all rhubarbs. The stalks are large and completely red from bottom to top, even the flesh. Cooking does not take its rich color but makes it more appetizing for pies and sauce. Sweetest of all. Takes less sugar. You can pull the big stalks all spring and summer and almost 'til fall. Seedless. Large No. 1 roots 98c each, 3 for 2.69, postpaid.

←DELCON—a true Dwarf Apple Tree for only 1.79

Delcon was originated by the Missouri State Experiment Station at Mountain Grove, Mo., and offered for sale for the first time in the United States in our March 1948 Seed Sense. Its parentage is Ben Davis, Jonathan and Delicious—a true dwarf with drooping branches.

Some dwarf apple trees are made by multigrating, a complicated process which is more expensive and when you end up you don't have much of a tree; and they have to sell for five or six dollars. But Delcon is a single-graft, a true dwarf, a small tree (for easy picking) with full-sized apples, and we will sell it for only 1.79, postpaid. Perfect for the back yard.

The fruit is fine grained, juicy, and has some of the flavor of both Delicious and Jonathan. It produces heavy at an early age, seldom needs thinning, ripens about ten days before Delicious, and keeps well in storage.

You ought to plant it. DeLuxe Grade not available. No. A3015, 2 to 4 ft. size only 1.79 each, postpaid. 4 to 5 ft. size only 2.19 each, postpaid.

Henry Field's NEW, HARDY HYBRID ELM

Fastest Growing Tree in the Temperate Zone

This amazing new tree combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. Apparently immune to Dutch Elm disease. Grows 8 to 14 feet per year—gives you shade in a hurry.

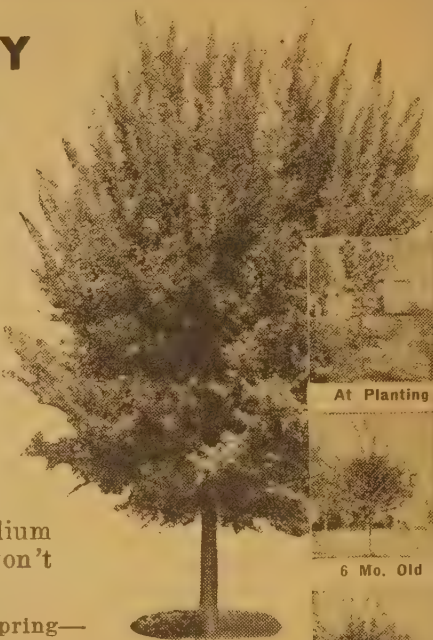

And it is extra hardy. Keeps right on growing in weather hot and cold, wet or dry. Its leaves are large and dark green; the bark is smooth and a medium grey color. The branches are straight and strong; won't break in a high wind.

NOTICE: Hybrid Elms sometimes start slowly in the spring—maybe sulk for as long as two months, then start growing like mad. It's the nature of the beast, so be patient with it. It soon

will more than make it up. The best time to plant Hybrid Elms, or any other tree, is in the fall when the trees become dormant enough to move (usually late October, when we ship), up until the ground is frozen so solid you can't crack it. Mound a pile of dirt around the base of the tree for the first winter to prevent frost heaving. Rabbits like young Hybrid Elms, so tie fine-mesh wire or heavy paper around the trunk for the first couple of winters.

LOMBARDY POPLAR

The Beautiful Pillar Tree

A4255—This is the beautiful, popular pillar tree that grows so fast. Used for backgrounds, accent plantings, driveway borders, and sentinel trees by the gate. Plant 6 to 8 feet apart.

Many people keep them cut off at the top when they have reached a height of 8, 12, 14 feet — any height desired — which keeps them shorter, encourages more dense growth and makes them better screens.

3 to 4-foot size:
2 for 08c; 5 for 1.19; 25 for 5.29, postpaid.

4 to 5-foot size:
2 for 78c; 5 for 1.49; 25 for 6.75, ppd.

Fall Plant Your WINDBREAK and Gain 6 Months

Suggestions for planting windbreak for protection against northwest winds:

Rows 1 and 2: Caragana, Russian Olive, Chinese Elm, Willow, or Mulberry. Plants 4 ft. apart in the row. These two rows are known as snowbreaks. Leave 40 to 60 ft. between them and the next.

Rows 3 and 4: Caragana, Green Ash, Chinese Elm, or American Elm. Plants 6 ft. apart in the row.

Rows 5 and 6: Cottonwood, American Elm, or Chinese Elm. Plants 6 ft. apart in the row.

Rows 7 and 8: Soft Maple, Mulberry, Cottonwood, or American Elm. Plants 6 ft. apart in the row.

Rows 9 and 10: Austrian Pine, Bull Pine, Spruce, Cedar, or Caragana and Russian Olive may be used again. If evergreens, 8 and 10 ft. apart in the row. If trees, 6 ft. apart is the proper spacing.

The trees and shrubs can be planted this fall; leave proper space for the evergreens to be planted in the spring.

First plow a deep furrow, put the seedlings against the straight edge, and then throw the loose dirt back in over the roots. Then plow a furrow on either side of the seedlings, throwing a ridge of dirt up and onto them. This will prevent heaving from frost during the winter. In the spring, pull this dirt away. The first 2 summers, cultivate plenty and keep free from weeds.

You Can Fall Plant These Henry Field ROSES

You can have better roses next spring if you plant them this fall. The fall-planted roses do not make any top growth during the fall and winter, but they do get a running start next spring because they already are in the ground to take advantage of melting snow and early cold rains. They get a good root growth before hot weather hits.

IMPORTANT: We can not ship roses to you in the fall until they become dormant, which usually is late October. To fall plant, prune tops to about 18". Plant in the usual way and then mound dirt over all but about 3" of the tips of the stems. Remove this mound of dirt gently next spring when the buds start swelling.

B1546—ROSE FRAGRANS. Immense bomb type. Deep pink. Very fragrant. Flowers after most others are gone.

B1508—DUCHESS DE NEMOURS. Illustrated at left. Vigorous grower and very free bloomer. Strong upright growth that does not seem to bend over with weight of blossoms.

B1549—SARAH BERNHARDT. Illustrated at left. Fine, large flowered, soft pink peony. Petals edged light pink, giving flowers silvery appearance. Fine fragrance. Midseason variety. 1.00 each; 3 for 2.69, postpaid.

Beautiful Peony Collection

B3164X—1 each of Frances Ortegat, Livingstone, Duchess de Nemours, Grover Cleveland. All 4 for only 2.89, postpaid.

True Double, Red, Fern Leaf Peony The Extra Early One

B1516—Once in a blue moon we work up a stock of this scarcest of all peonies. We have lots of calls for it but haven't had stock available since about four years ago.

It blooms in early May here at Shenandoah. Doesn't grow very tall—about a foot—and makes a nice clump of finely cut, ferny foliage, much like that of a cosmos. The blooms are a glistening, fiery, double red and are set in a nest of the plant's foliage. Hardy everywhere.

We are going to sell this peony for 1.75 each, although if you can find it listed in any other catalog, you'll probably find it priced at 3.00—maybe more. If you want one, better get your order in soon. We probably won't have any more for another four years. 1.75 each, postpaid.

B3158X—Collection of 1 Red, 1 Pink, 1 White. 1.35, ppd.

MARTHA BULLOCK

The Largest Flowered
of all Peonies

B1535—Peony experts rate this as one of the three best of all peonies. Its blooms are almost as large as the ordinary-size dinner plate. Outer petals are a soft rose-pink; the full, fluffy center a pale shell-pink. Stems are stiff, strong, and easily hold the immense, fragrant blossoms upright where they can be seen. 1.25 each; 3 for 3.49, postpaid.

MEMORIAL DAY COLLECTION

3 Choice Peonies only 1.98
Postpaid

B3167X—This is always our most popular peony collection. You get three colors, each in an early blooming variety. Will give you an ideal selection of peonies for Memorial Day.

1 **DUCHESS DE NEMOURS**—large white.

1 **FLORAL TREASURE**—deep pink outer petals, shading to light pink center.

1 **KARL ROSENFELD**—deep red.

FREE GIFT: 1 Regal, the most popular lily we grow.

IMPORTANT TIP: Plant the peony roots so that the little pink buds are exactly 2" below ground level—no more, no less. This is important. Then mound the ground up over the top 4 to 6 inches for the winter.

3 for \$1.00 PEONY SPECIAL

B3150X—A grand assortment of big, double, choice varieties of different colors. This is your chance to save because this collection is made up of varieties we grow too many of—often the most expensive ones. Unlabeled. Sent postpaid.

Lots of folks just like to buy peonies by color and want great big, full, double flowers. Here they are at bargain prices. All good varieties, labeled as to color.

Hardy PHLOX

Fall is the best time of the whole year for planting phlox. The roots get hooked into the soil and the plants are "rarin' to go" with the first breath of spring. Mulch the plants well after (not before) the ground freezes the first winter.

Phlox grow about 18" to 36" high, depending upon the soil. They like full sun, but will do well in partial shade. The pastel pinks and blues really look better in partial shade where the sun won't fade them. Phlox bloom in July and Aug., and are perfectly hardy. Keep the flowers cut so the plants won't go to seed; the seedlings almost always come a muddy magenta color and, being very vigorous, crowd out your good varieties.

Price on the 6 below is 39c each; 3 for 98c, postpaid:
B1640—MIES COPJYN. This is a Dutch Phlox of gorgeous silvery pink.
B1643—MARY LOUISE. Pure shiny white and a free bloomer.
B1646—STARLIGHT. A clear, rich violet with a sharply defined white star in center.
B1613—EVA FORESTER. Flowers of tremendous size. One of the best.
B1657—PROGRESS. Lavender blue with centers a shade lighter.
B1636—LEO SCHLAGETER. This is the largest and best crimson.

Price on the 6 below is 45c each; 3 for 1.15, postpaid:

Hardy AMARYLLIS

or Magic Lily

B2088—In the spring, it throws out a cluster of leaves, which die down in early summer. Then stems pop out of the bare ground, grow 2 to 3 ft. high, each bearing several large lilac-pink lilies. Large flowering bulbs. 79c each; 3 for 2.19, postpaid.

RAINBOW HYBRID

New LILIES

These are the big, brilliantly-colored, famous new hybrids from the west coast. Not only are they gorgeous but absolutely hardy and very easy to grow. Colors run from palest straw yellow to deepest gold with lots of maroons and deep reds—and sometimes with all these colors in one blossom. Long, tall stems. The best part is we don't have to sell them for \$4 or \$5 apiece. These are our low prices:

B5026—59c each; 3 for 1.49; 6 for 2.25, postpaid.

Henry Field's HARDY LILIES

If you have never planted lilies in the fall, we urge you to do so. You probably know, of course, that the Madonna lily should be planted in the fall only, but you will find that all lilies are particularly well adapted to fall planting. Just plant them in the usual way but, if you live where the ground freezes, mulch with 2 inches of coarse straw after the ground is frozen, particularly the first winter.

We have assembled here for you what we sincerely believe are the world's best lilies. Some are the old familiar favorites but some are new ones that will amaze both you and your friends with their great beauty.

NEW! CENTIFOLIUM HYBRID LILY

These are magnificent pure white hybrids from the West Coast, the result of over 15 years of hybridizing. They are the result of crossing of a half dozen or more lilies and far outshine the Regal Lily in every respect. After several years of growth, they reach a height of 6 to 8 feet with great clusters of 50 or more blossoms crowning the top.

The flowers are shaped like broad flaring trumpets, as you can see in the picture, and are pure white inside. The reverse of the petals are often pink, emerald green, or brown, making some striking contrasts in color.

These lilies are exceedingly hardy, growing and blooming beautifully outdoors. Because of their deep root system, they stand severe drought well. Plant 6 inches deep.

They are called Lilium Centifolium (Hundred Leaved) because of their abundant, rich green foliage.

B5004—59c each; 3 for 1.49, postpaid.

The NEW Mei Ling

B5017—These are unusually beautiful lilies—flowers are 4 to 6" across, pure white, with a bright golden star center. Wonderful cut flowers and, for corsages, as beautiful as orchids. Plant 6" deep. 1.98 each; 3 for 5.49, postpaid.

Yellow Trumpet

B5037—This lily is from the same seedling strain as the spike of bloom that won the Griffith Cup and the Sweepstakes Award at the 1950 National Lily Show; also the Award of Merit at the 1951 show. 2.00 each; 3 for 5.98, postpaid.

Pink Trumpet

B5020—Another of the beautiful new Yerex hybrid strains. A very hardy plant, and a vigorous grower. Flowers apt to fade in direct hot sun so plant in partial shade, or 'protect' at time of blooming. Plant 6" deep. 2.75 each, postpaid.

4 GREAT NEW LILIES

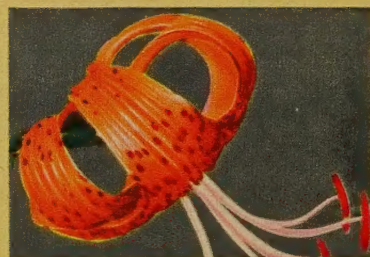

The lilies Mei Ling, Pink Trumpet, Yellow Trumpet, and Aurelian Hybrids are from a group resulting from more than 15 years of patient crossing by Mr. Carleton Yerex in the Pacific Northwest. We have visited Mr. Yerex's place many times, and the lilies he has there are astounding. We first planted these here in Shenandoah in the fall of 1949. They are perfectly hardy and as easily grown as any other plant. Some grow stems higher than our head. They are far superior in color and beauty.

New Lilies Collection

B3463X—Top size bulbs of the scarce, new hybrids. Only a few firms have them; you can't duplicate this price anywhere. 1 each of Pink Trumpet, Yellow Trumpet, Aurelian Hybrid, and Mei Ling—all 4 for 7.49, postpaid.

New Aurelian Hybrids

B5000—Wide, flaring trumpet lilies in beautiful combinations of colors, including gorgeous sunburst effects. Flowers are all 6" or more across and, as the plants grow older, form magnificent clumps. Plant 6" deep. 1.69 each; 3 for 4.98, postpaid.

Henryi Lily

B5013—Grows up to nine feet tall with many large, brilliant orange blossoms. One of the best and strongest growing of all lilies, and still quite scarce. Plant 10 inches deep. 59c each; 3 for 1.49; 6 for 2.25, postpaid.

Bargain Lily Collection

B3464X—1 each of Henryi, Flame, Regal, Coral, Speciosum Rubrum and Centifolium—all 6 for only 2.69, postpaid.

Cascade Hybrid Madonna

B5016—Has tremendous vigor. Surpasses all other Madonnas in height of stalk and size of flowers. Has great resistance to lily disease botrytis. Plant not over 2 to 3 inches deep. 59c each; 3 for 1.49, postpaid.

Coral Lily

B5005 (Tenuifolium) — Narrow-leaved, slender-growing plant with many deep scarlet, waxy, recurved flowers on each plant. One of the most brilliantly colored lilies. Plant 4 to 6 inches deep. 29c each; 3 for 75c; 5 for 1.19, postpaid.

Brilliant Lily Collection

B3456X—1 each of Coral, Flame, Speciosum Rubrum and Henryi—all for only 1.69, postpaid.

Speciosum Rubrum The Beautiful "Show Lily"

B5030—Carmine red on a white ground with crimson spots. One of the most beautiful of all lilies, but very hardy; will grow just about anywhere. Plant 7 to 8 inches deep. 75c each; 3 for 1.98, postpaid.

FLAME LILY (Red Russian)

B5011—One of the easiest of all garden lilies to grow. Produces large clusters of good-sized, reddish-orange flowers. Plant 6 to 8" deep. 35c each; 3 for 80c; 5 for 1.29, postpaid.

Regal Lily Bargain

B3455X—A little smaller bulbs than those offered under B5027, but very good. 25 bulbs for only 3.39, postpaid.

REGAL LILY

Always Covered with Blooms

B5027—The graceful lily with large pure white flowers, tinged lightly with lilac on the outside and yellow on the inside. One of the most widely grown, and most popular, of all lilies. Plant 8 to 10 inches deep. 35c each; 3 for 79c; 5 for 1.19, postpaid.
